

Nondini apu,

Read the article of Mr.Ziaul Haque on Satrong page on "Naribadi Bonum Manobotabadi Birombonay Amra".

He said correctly that mostly the women writers are coming forward to write about the Women Rights, Women Lib and Torture committed to Women.

Very few male writers have ever written on these topics. May be that women understand the pains and sorrows of women-kind, so the writings of women writers reflect the correct picture and feelings about the lives and hopes of women.

In his article he has shed light on very sensitive issues and sides of women life in family circle, like being deprived of the property right and honour by brothers, negligence shown to mothers, dishonouring the wives by the husbands, right of women on own assets and so on. I am happy that a member of the male clan has spoken so frankly about these issues. My regards to him.

I would request him to write more on these issues for creating awareness among the people to render due honour and right to women-kind.
